

My name is Grace Collins, and I am a year 13 pupil at St Joseph's Grammar School Donaghmore. This summer, I will be travelling with a group of people from my school on behalf of Habitat for Humanity to Siem Reap, Cambodia, to build sustainable housing in an underprivileged community in the area.

- In Cambodia, 75% of the population live on less than \$3 a day.
- 2 million homes in Cambodia do not meet Habitat's minimum quality requirements.
- In a population of 15 million, over 15% of Cambodians live below the poverty line.

St Joseph's Grammar has been involved with Habitat for Humanity's work for the past number of years, and have witnessed first-hand how the monies raised go a long way in helping to make everyday life for those living in the poorest communities that little bit easier.

Thank you in advance for your generosity.

One in four people in our world do not have a decent place to live. Every day, Habitat for Humanity empowers families to build or improve their home in 70 countries. In Northern Ireland, it brings people together to serve the most vulnerable and raises funds to support long-term development programmes in some of the world's poorest communities.
